Notes

- The pattern is written in standard US terms.
- The number in parentheses at the end of the row is how many stitches are in that row.

Finished Size

- 30" x 35" (height x width)
- This pattern is written in **ONE** size: Stroller
- The initial foundation row should be approximately 35" and the finished height of the blanket is approximately 30" high.
- You can change the **blanket size** by changing any number for your foundation row. I did not figure out the stripe pattern for other sizes, but you are more than welcome to do that on your own.
